

Quicksilver is committed to safeguard the confidentiality, integrity and availability of all physical and electronic information assets of the institution to ensure that regulatory, operational and contractual requirements are fulfilled.

The overall goals for information security at Quicksilver are the following:

- Ensure compliance with current laws, regulations and guidelines
- Comply with requirements for confidentiality, integrity and availability for Quicksilver removals employees, students and other users
- Establish controls for protecting Quicksilver information and information systems against theft, abuse and other forms of harm and loss
- Motivate administrators and employees to maintain the responsibility for, ownership of and knowledge about information security, in order to minimize the risk of security incidents.
- Ensure that Quicksilver is capable of continuing their services even if major security incidents occur
- Ensure the protection of personal data (privacy)
- Ensure the availability and reliability of the network infrastructure and the services supplied and operated by Quicksilver
- Comply with methods from international standards for information security e.g ISO/IEC 27001
- Ensure that external service providers comply with Corporate Moves information security needs and requirements
